CEO

**MAKE LIFE MEMORABLE
WE ARE ON THE WAY
THERE ALWAYS NOTHING
TO BE PERFECT
BUT TO BE BETTER**

10 years, maybe it is not a quite long time but it should be a good time scale that we should let ourselves be free of mind and to be ourselves and take time to go back and forward! I am Rachel, Co-founder of Lopo who would like to share something with our customers and members!

Lopo was established by Russell and I in 2011, nothing special, the initial mission for us to run our business was just trying to live better to be managed to have our own apartment and let our kids can be educated here in Shenzhen. With the growth of our business, more members joined us, then the mission changed to try to let all of our Lopo members can live better and can be better themselves.

Now, we have our own factories, more than 100 members, our own way of running business, own way of getting our members to be educated and our own principle, finally, we made our company's vision as MAKE LIFE MEMORABLE !

10 years, from personal living requirement to society's responsibility as MAKE LIFE MEMORABLE, it is not an easy way but a very interesting way.

WATCH VIDEO

As a sales, my principle is to be honest with customers, because I believe that only if you be honest with your customers, then you can be trusted by your customers, then you would have a good relationship with your customers, then you can be managed to help your customers to make the right decision to grow their business. Sometimes, I feel that I am really lucky, I managed to have good relationship with lots of our customers, some are even like family, like, Terry from Australia, Chris from the UK, Massimo from Italy, Tom from the USA, etc.

As a products manager, I always keep the quality go first, then control the cost by bulk production and professional sourcing department's hard working. Due to I believe that sublimation is the best way for small and medium quantity customization, all the products we offered would turn into a personalized gift to pass love from people to people, so it needs to be good enough to take that kinds of LOVE!

As a company leader, my job is to make sure that all the members know what they are doing, what kinds of value they are creating, how they can be better themselves and finally, they could be better themselves!

At last, I would like to say thank you to all of our customers, thank you for choosing us and support which you had given to us; thank you for all of our Lopo members, thank you for your trust and hard-working; thank you for our competitors, thank you for helping us always keep moving to be better! Make Life Memorable! We are on the way, there is always nothing to be perfect, but to be better!

ABOUT GALAXY PRESS DONGGUANG FACTORY

3000⁺
Monthly output

150⁺
Employees

10⁺
Year experience

Galaxy press was launched in the market at Fespa London 2013 ,aims to make a really good quality machine from China with our own brand and can be accepted and respected by EU and USA customers.We have about 80 workers and they are all very diligent and professional but also they do enjoy their daily work there ! You think ,we make ,we are happy to make your idea come TRUE!

Safety & Warranty

Galaxy Press carries all regulatory safety agency approvals. All machines and parts are CE, FCC, UL approved and RoHS compliant. These approvals assure our whole products meet the highest regulatory standards.

Parts & Services

Galaxy Heat Press comes with a complete maintenance manual and parts list to advise customers on general maintenance.

A skilled sales and service team can assist customers with any inquiries on parts and services. All of our distributors have parts stock and engineers, which will answer customers' questions and send replacement parts in time.

Distribution Network

Since the time “Galaxy Press” is established, we decide to cooperate with reputed distributors all over the world. Now we have established a distribution network in over 20 countries around the world. We have warehouses in UK, USA, Poland and Spain which help facilitate all products purchased and shipment overseas. We would like to communicate with all potential distributors in the related heat transfer industry sincerely for win-win cooperation.

At last ,there is nothing to be perfect ,but there always a way to be better ,we are on the way!

Galaxy Auto/Manual Clam Slider GS-105HS

GS-105HS is the most popular model among our Galaxy Family, not just from the outlook but the function. GS-105HS is the 6th version since GS-101, this machine is clearly show how our GALAXY PRESS to be here today since the first beginning.

Auto-open with slider, pressure sensor ,Ramlock & Ramspin system, step by step, took us 7 years to get this version (GS-105HS) be ready. With the mission of making the most user friendly & profitable heat press, GS-105HS came into the market.

Officially Released into the market in March 2021!

Packing Weight: 46.5kg/51.5kg

Galaxy Swing Light GS-303-16"x20"

The swing machine are always requested by our Galaxy Press users, so we developed a heavy duty type which we called GALAXY HERO (GS-302). But due it is too heavy (100kg/set) which caused it hard to deliver although it is with good performance. So the GS-303 was designed with swing away design, light weight but with higher pressure to be applied which can be managed to work with all types of Dye-sub materials and laser transfer paper. It looks like with a very common design, but it is offered with our patented Ramlock system, wide space at the bottom for easier lay-in and lay-out the substrate, trust that it would be popular among our Galaxy Press user's by its stable quality, good performance and lower cost. Officially Released into the market in May 2021!

Features

- "RAMLOCK" Quick Change System
- Swing Away Design
- Dressable Lower Platen
- Interchangeable Control Box
- Pressure Knob
- Over The Center Pressure Distribution

Galaxy Air Mug4 GS-206

GS-206 is 4 stations and automatic mug press, it need to be work with an extra air compressor. This mug press is designed for the customer who would need to print thousands of mugs a day. The workers just need to wrap the paper and put in and take out the mugs from the mug press. It is offered with a heater which can compatible with both 11oz and 15oz ceramic mugs. Bottom heating element would ensure a perfect full printing result although it is automatic machine.

Features

- Bottom Heating
- New mug heater with longer size
- Heaters' Temperature
- Controlled Separately
- Freely switch between two stations and four stations mode

VIDEO

Heater Size: W226mm*H138mm for 11oz/15oz mug

Power: 120V;4*300W/4*120W 16.1 Amps(max) / 240V;4*300W/4*120W 8.1 Amps(max)

Temperature Range: Max.221°C/430°F

Time Range: 0~999S

Suggest Temp & Time Setting: 150°C~190°C 40-50secs 302°F~374°F 40-50secs

Bottom Heater 130°C~150°C(266°F~302°F)

Machine Size(While Open): 65.2x33.9x28.7cm

Packing Size: 73x42x36cm

Packing Weight: 25kg

Maximum Paper Printing Size: 11oz mug: 206*95mm(L*W)/15oz mug:206*105mm(L*W)

Galaxy Air Mug4 GS-207

GS-207 is 4 stations and with same structure as GS-206, the only difference from GS-206 is this mug press is designed for Aluminum water bottle, it can work with the most popular Aluminum water bottles, because the Aluminum water bottle is so popular in the market which made us developed this mug press. So GS-207 would be the best choice for bulk printing Aluminum water bottle decorators.

Features

- Heaters' Temperature
- Controlled Separately
- Desk-top design
- Heaters' Temperature
- Controlled Separately
- Freely switch between two stations and four stations mode

VIDEO

500ml sports bottle: 175*114mm(L*W) 600ml sports bottle: 175*134mm(L*W)

Galaxy Mug Cooler GS-208

GS-208 is the first mug cooler we developed ,the reason for us to develop this is to mean to let it be as a set for GS-206 . So the users do not need to wait for the mugs to be cool down ,instead ,then just need to put the printed hot mugs into this cooler and keep working on next printing setting , this can be really speed up the working efficiency and make sure there would be no workers to be hurt by heat. It can be also work with any mug decorators if they willing to have it.

Features

- Easy to operate
- Desk top design,does not take great space.
- Cooling mugs from 190°C(374°F) to 40°C(104°F) in 4 minutes.

Model: GS-208

Power: 120V;80W/0.67Amps / 240V;80W/0.4Amps

About Sewing Factory

Sublimation Textile is the second-largest category except for Ceramic products in the sublimation industry, Lopo noticed this in 2016 and then paid a lot of attention to the research of the material for sublimation textile, luckily, we found it in the field that we can manage to get in and do it better. So we started focusing on developing new sublimation textile materials in late 2016 and we managed to develop sub-linen, sub-sequin, soft-linen, colorful -linen, and there are more new materials are under development.

Finally, the sewing line was open in earlier in 2019, we were so lucky that we have found the professional manager and workers to join us, most of them are being in the sewing industry for their entire life, they work hard but never complain, they are professional but they never thought they are somebody, they love what they do and always try their best. So now, from two years of growing, I am proud to say that we should be the most professional supplier of sublimation textile products among all the Chinese suppliers and we keep moving

Soften Material

Linen

Used for pillow case, tote bag, easter basket and more

Color: white, light blue, dark blue, green, nature

Feature: Linen brought lots of possibilities into sublimation industry for the past few years, it made sublimation be with a higher end finished products and it is still keep growing.

Burlap

Used for shopping bag, coaster, wine bag and more

Color: nature

Feature: Natural feeling and cost effective make burlap material to be really popular, coaster, apron, wine bag, a full series of home deco is available based on this material.

Soften Linen

Used for pillow case, car pillow case and more

Color: white

Feature: Quality as good as linen, but feeling as soft as velvet and it is in white color. Super !!!

Economical Series

Econo shopping bags are always in demand, so with the quality and performance ensured, we spare no effort to reduce the cost by mass production. That's why this series can meet the demand of low-budget customers in both South and North America and Europe. We are confident that we are competitive in price under equal quality, therefore it's possible to boost sales by air.

100% polyester material can guarantee the printing effect and it's suitable for air transportation since it's portable and economical.

Size: 37.5*15.2cm

Felt Material

The blank sheets are made of quality felt material, safe and non-toxic, have no bad smell, easy to wash and dry quickly, are not easy to deform and break, can accompany you for a long time. You could add the essential oils on the felt hanging sheet, and each felt hanging sheet is designed with a hole, then you could thread the elastic rope through the hole in the sheet and tie it on somewhere you like in your car.

About Tumbler Factory

Personalized Tumbler was a new idea that had been come into people's life since the end of 2018, and it become a very popular category among the sublimation industry since 2020 and going to be booming in 2021 because the Tumbler press is developed and pushed into the market, it did changes peoples life a lot, a personalized tumbler is just as easy as printing normal ceramic mugs.

With the noticing of the growing market for sublimation tumblers, Lopo as a manufacturer of heat press machines and sublimation blanks, invest in a stainless steel tumbler factory since earlier 2019 in Yongkong.

At our tumbler factory, our daily output is 8,000pcs of tumbler and we do all the steps, from raw material to coated tumbler by ourselves to ensure high quality, together with the tumbler, we managed to develop the tumbler press to let customers can print tumbler in full very easily. So what we can offer to our customers is not just a blank coated tumbler for sublimation but also a tumbler press to print, no matter it is the common shape or unique shape .You think, we make, we would be very glad to help you to get your ideas to come true!

Glass Skinny Tumbler is our new product in 2022. It is the same diameter as the 20oz skinny tumbler and fits our 205b-plus, but its capacity is larger than that of the skinny tumbler. Its material is made of high-quality glass, which is especially suitable for cold drinks in summer. Two different lids are available, and different styles show different charms. Glass Skinny Tumbler can hold your iced coffee, juice, milk, any drinks you like. It's can for outdoor, office and home using.

25OZ Frosted Glass Skinny Tumbler

Double Wall Glass Tumbler -Matt

Item No.: M.04.03.0041-20OZ
Item No.: M.04.03.0040-16OZ
Item No.: M.04.03.0039-12OZ

About MDF Factory

MDF had been in the market for more than decades, it was started from USA, a company named Unisub who developed this full series of products and now they're still producing and making the best quality of this full series of products in sublimation industry.

It came into Chinese supply market about 10 years ago , started from some photo panel suppliers who know nothing about sublimation but just developed it upon their customer's requirement.

Due LOPO was specialized in sublimation industry from the first beginning, so there was no surprise that we found those suppliers and became partner with them to keep developing and improving the quality of the MDF sheet for sublimation.

We have our Now, our MDF factory is located in Huizhou, about one hour to drive from our head office in Shenzhen ,we are a partnership with them not 100% owned by LOPO. But with the years of developing products together ,growing together, we managed to serve our customers with the best quality MDF products from China and at a reasonable price. We had managed to get the double side printable MDF board with 3MM thickness, nature wood sheet with coating for sublimation, HPP sheet with higher density and more glossy surface, different thickness of MDF sheet for different types of photo panel use. So we could promise that the MDF products we offer should not be the best quality among the whole industry, but should be the best among all the Chinese supply chain, we could promise our price should not be the best but compared the quality it should be the most competitive one.

About Coating Factory

Lopo's slate, glass and ceramic tiles factory is located in Ganzhou, Jiangxi where is about 6 hours to drive from their office in Shenzhen ,the only reason to choose to have a factory that far away from the office is because the labor cost over there is much cheaper while we found the right partner over there who can help us control both quality and price.

Slate

1. Cleaning with water

2. Dry the water

3. Get the dust away

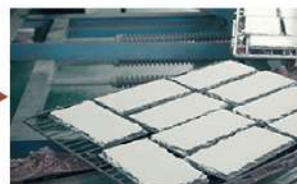

4. First layer coating

5. Cleaning

6. Second layer Coating

7. Dry the Coating

8. QC&Packing

Ceramic

1. Get raw material clean and ready for coating
